The draft permit authorizes the land application of wastewater treatment plant biosolids and water treatment plant residuals for beneficial use on 189 acres. This permit will not authorize a discharge of pollutants into water in the state. TCEQ received this application on October 6, 2020.

The land application unit is located within the drainage basin of Bessie's Creek in Segment No. 1202 of the Brazos River Basin.

The TCEQ Executive Director has completed the technical review of the application and prepared a draft permit.
