

5/16/24 Emergency Operations Center:

Waller County Office of Emergency Management has activated their Emergency Operations Center in response to the high winds, damaged properties, downed power lines. We are coordinated with the Waller County SO, Fire Departments, EMS, Road and Bridge and power companies. San Bernard Electric is reporting approximately 7523 Waller County customers and 8000 Center Point customers without power. We are very thankful that there are no serious injuries. Residents are asked to stay off of the roadways until first responders and road crews can clear the roadways and make them safe. Any residents in need can contact the Waller County EOC for non-emergency assistance at 979-826-7785.
